RANKING OF DESIGN AND ARCHITECTURE COURSES IN ASIA

Our Ranking reflects integral quality estimation of the level of preparation of high school graduates determined by statistical data relating to the Universities' educational and research activities, based on the key referent group opinion, including: Employers, Professors and also Graduates.

In general we are offering a review of 96 Educational Design Programs in Asia (20 programs in India, 15 in China, 39 in Japan, 11 in Thailand and 11 in Singapore).

The Online Survey was conducted in March-June 2015.

The information for this Ranking was gathered from different sources: student interviews, graduates interviews, high school websites, surveys of professional community members, awards' websites, design websites.

Description of University

Indian Institute of Technology, Kanpur, established in 1959, is one of the premier institutions established by the Government of India. The aim of the Institute is to provide meaningful education, to conduct original research of the highest standard and to provide leadership in technological innovation. Province and the Shenzhen graduate school in Guangdong Province.

Estimation of programs (qualities, advantages, opportunities)

Design Program offers well-structured course-template for students to synthesize technology and aesthetics in the service of human needs. The program encourages creativity, innovation, craftsmanship, and personal expression leading to evolution of products and services in the field of engineering design and visual communications. Some of the notable alumni of Indian Institute of Technology won such completions as Bajaj Award 2001, FICCI award 2002, Globe Award 2009, 2014 University of Florida Distinguished Alumnus Award.

Disciplines

Design Theory, Design Practice, Design project, Creative Visualization, Management of Design and Innovation, Introduction to Critical Art Appreciation.

International programs for students of the institution:

The globally acclaimed education at IIT Kanpur prepares the international students for exciting careers all over the world. The education develops a critical thinking-led approach and imparts knowledge in science, engineering, management and humanities fields to solve problems that challenge humanity. They provide various student exchange programs as well as other programs such as Hiyoshi International Internship Program, Commonwealth Scholarship and etc..

Internships/Jobs of graduates and achievement of professors

Graduates:

- Sanjay Sarma, professor at MIT, credited with developing standards and technologies in the commercial RFID industry;
- Abhay Bhisikar, Scientific Officer at Raja Ramanna Centre for Advanced Technology and alumni of Maulana Azad National Institute of Technology..

The faculty of IITK has the recent recipients of major National and International awards. These include Padma Shri, Infosys Prize, TWAS Prize, National J.C. Bose Fellowship, Fulkerson Prize, Goedel Prize, National Academy of Sciences (NASc), Indian National Science Academy (INSA).

<http://www.sd.polyu.edu.hk/en/>

Description of University

The Hong Kong Polytechnic University is a University with the vision to excel in professional education, applied research and partnership for the betterment of Hong Kong, the nation and the world. PolyU takes pride in offering a wide range of quality programs, which nurture graduates who are critical thinkers, effective communicators, innovative problem solvers, lifelong learners and ethical leaders.

Estimation of programs (qualities, advantages, opportunities)

PolyU Design has been an important hub of design education and research for Hong Kong since 1964. The Master of Design (Design Strategies) is directed at people who are established in their careers and wish to deepen and enhance their strategic thinking and methods by integrating design, business, and technology. The specialism is intended for both design and non-design professionals with solid working experience in or related to the areas of design, such as communication, brand management, production, marketing, engineering or teaching.

Disciplines

Design Strategies has a flexible approach to learning for engaged professionals. Subjects are taught on weekends with most subjects taken in any order after the completion of a selection of core subjects. Not a studio program, the purpose of this specialism is academic — to deepen design understanding and integrate design in its business and technological context through reading, thinking, discussing, and writing. The program concludes with a report that synthesizes individual experience and interests with program materials leading to strategic development for an organisation or in the pursuit of social or cultural goals.

International programs for students of the institution:

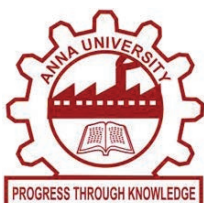

Aalto University (Finland), Weissensee School of Art, Berlin (Germany), Buckinghamshire New University (United Kingdom), Cornell University (USA), Delft University of Technology (The Netherlands), etc.

Internships/Jobs of graduates and achievement of professors

Master of Strategic Design as well as Innovation Design Management (IDM/MBA), the creator of Mc Mug and McDull, Oscar-winner and Supervising Animator for the movie Shrek, etc.

Description of University

Anna University was established on 4th September 1978 as a unitary type of University. It offers higher education in Engineering, Technology and allied Sciences relevant to the current and projected needs of the society.

Estimation of programs (qualities, advantages, opportunities)

The school has advanced in Computer and Networking facilities with an exclusive Computer Lab for UG and PG students and independent Computer Design Studios for the M.Arch. (Digital) program. People, who graduates from this program become winner different awards, like Ramon Magsaysay Award, the World Food Prize and so on. There is Minister of State, Science and Technology & Earth Sciences, Government of India among graduates.

Disciplines

Design of Structures, History of Architecture and Culture, Environmental Science, Building Materials, Building Services, Architectural Design, Building Construction, Site Analysis and Planning, Building Construction

Elective, Architectural Design Development.

International programs for students of the institution:

The Centre for International Affairs (CIA) has been coordinating the bilateral research and academic programs with overseas Institutions/Universities through Memorandum of Understanding (MoU), Exchange of Faculty/Students, Foreign Language Programs and conduct of International Joint Seminars/Conferences. At present the University has established academic and research collaborations with more than 66 foreign Universities/Institutions through MoUs.

Internships/Jobs of graduates and achievement of professors

Graduates:

- Verghese Kurien, architect of Operation Flood and India's White Revolution and winner of the Ramon Magsaysay Award and the World Food Prize

- Sujatha Rangarajan, writer Professors:

- Dr. S. RENGANATHAN Associate professor

"Bright Student Award" given by government of Tamil Nadu from INDIA (1986).

"Thiru T.M. Narayana Pillai Chemical Engineering Prize" given by ANNAMALAI UNIVERSITY from INDIA (1995).

"Best NSS Programme Officer Award" given by ANNA UNIVERSITY from INDIA (2007).

Description of University

Shanghai Jiao Tong University (SJTU), as one of the higher education institutions, which enjoys a long history and a world-renowned reputation in China, is a key University directly under the administration of the Ministry of Education (MOE) of the People's Republic of China and co-constructed by MOE and Shanghai Municipal Government.

Requirements

By December 2013, SJTU has had 16,099 undergraduates and 27,921 postgraduates (13,345 Master degree candidates and 6,287 Doctorate degree candidates).

Estimation of programs (qualities, advantages, opportunities)

SMD features its teaching as following: interaction of arts and science, interdependence of theory and practice, interconnection of technology, academic research and arts, internationalization, digitization and integration of Industry-University-Research. SMD aims at training and developing a new generation of "multi-talented graduates" who are not only equipped with modern communication theory and technique, but also with design creativity.

Disciplines

Modeling foundation, Design basis, Professional theory, Creative graphics, Photography, Printing and design, Graphic design.

Brand design, Brand stores and exhibition design, Brand design management, Font design, Layout, Logo design, Illustration design, Packaging design, Book design overall.

Advertising creative, Advertising design, Print and television advertising design and production, Film and television post-production, Copywriting, brand-planning design.

International programs for students of the institution:

SJTU offer a wide range of graduate programs to international students including 61 masters programs and 35 doctoral programs in 22 different departments.

Internships/Jobs of graduates and achievement of professors

Students from SJTU have won top prizes in various competitions, including ACM International Collegiate Programming Contest, International Mathematical Contest in Modeling and Electronics Design Contests.

Professors of the University have different achievements: Ministry of Education, "New Century Excellent Talents", National Excellent Doctoral Dissertation nomination papers, The Shanghai Municipal Education Commission "Yucai Award", The Seventh Shanghai Social Sciences outstanding achievement prize, etc.

Description of University

King Mongkut's University of Technology Thonburi was founded as a research University serving as both educational park and industrial park. KMUTT currently produces qualified graduates and skillful human resources with strong quality and morality ground. The University actively engages in research and development as well as provides quality academic services contributing to enhancement of economy and quality of life.

Estimation of programs (qualities, advantages, opportunities)

This program aims to produce graduates who are skilled and creative in visual and verbal communicators and who are well prepared for design or design-related careers. The course also provides the skills and knowledge necessary for further study in design and communication. Specifically, the course aims to provide students with a thorough understanding of the various contexts – psychological, social, cultural, theoretical – that will enhance their work as communication designers and provide a comprehensive education through the English language program, and to develop graduates who are oriented towards the international market and prepared to contribute to the culture, welfare and reputation of Thailand.

Disciplines

Communication Design Principle, Theoretical, Historical and Cultural Contexts, Tools, Technologies, and Media, Professional Context, Communication Design Project Group, Integrative Courses.

International programs for students of the institution:

KMUTT has 11 international programs:

Computer Science, Civil Engineering, Automation Engineering, Computer Engineering, Electrical Communication and Electronic Engineering, Environmental Engineering, Architecture, Chemical Engineering, Industrial Design, Communication Design, Interior Architecture.

Description of University

The Communication University of China (CUC) is one of China's key Universities of "Project 211", directly under the guidance of the State Ministry of Education.

Estimation of programs (qualities, advantages, opportunities)

There are currently 62 professional Teachers at this school, among them 8 Professors and 13 Associate Professors. Up to now, a large amount of alumni are in key positions, both administratively and technically, with different media industries, including the former and present chief engineers at the three main Radio and TV stations of China, several directors of central and local administration of radio, film and television.

Disciplines

Animation (with 3 directions): Animation Writing and Directing, Animation Design, Digital Animation, Digital Media Art (with 2 directions): Digital Film and Television Production, Media Art, Online Game Design (with 2 directions): Game Programming, Game Art

International programs for students of the institution:

Degree Programs: 55 Undergraduate Programs; 60 Master's Programs; 25 Doctoral Programs.

Internships/Jobs of graduates and achievement of professors

Up to now, a large amount of alumni are in key positions, both administratively and technically, with different media industries, including the former and present chief engineers at the three main Radio and TV stations of China, several directors of central and local administration of radio, film and television.

Among the overall 1,897 staff members in the CUC, there is a strong faculty team of 1,096 professionals, some of whom enjoy great fame both at home and abroad. In recent years, one Professor has been appointed to a distinguished position of the Changjiang Program Scholar; 11 have entered provincial or ministerial level Talent Engineering Project; 7 have won the national or municipal Famous Teacher prize, etc.

Description of University

Nanjing University is fully aware of and ready to be entrusted with new missions and responsibilities in the 21st Century, a century of globalization. Committed to embracing this century of change, we sincerely welcome scholars and students from all around the world to join us in this worthwhile work for social and academic development.

Estimation of programs (qualities, advantages, opportunities)

As a result of the merger of the School of Architecture and the Department of Urban and Regional Planning of the School of Geographic and Oceanographic Sciences, the School of Architecture and Urban Planning comprising the Department of Architecture and the Department of Urban Planning and Design gears itself toward the objective of bringing up high-level professionals specializing in architectural design, urban planning and design, and regional and landscape planning and design.

Disciplines

There are 7 large units, which include more than 30 disciplines: Design Course, Professional theory, Building Technology, History Theory, Practical Course, Liberal Theory, Elective Courses.

Internships/Jobs of graduates and achievement of professors

School of Architecture and Urban Planning, Nanjing University, have a strong teaching faculty and a well-balanced research team. Currently they have 45 full-time faculty members, 38 of them possess Doctoral degrees. Among them there are 16 Professors and 16 Associate Professors.

International programs for students of the institution:

The Institute serves as a training site for such diverse organizations as the Chinese Department of the U. N., the Council on International Education Exchange (CIEE), the Chinese Teaching Association of New York Area and the American National Chinese Flagship Program. It regularly offers programs in Chinese language and culture and HSK pre-courses; HSK test participants from the University have traditionally received high rankings after being tested.

Description of University

Amity School of Communication is a premier communication institute under the Amity Universe umbrella which offers professional courses at under-graduate and post graduate level. With the fast changing education scenario, when students prefer elite institutes, Amity School of Communication has been growing tremendously, with more than 800 students.

Estimation of programs (qualities, advantages, opportunities)

Alumni are the best brand ambassadors for any educational institution. On that count, Amity is fortunate to have some of the most effective brand ambassadors. Amity has ever growing alumni bases that are currently pursuing fast track careers with blue-chip companies in India and abroad. Graduates work in such famous organization as Nokia Corporation, Sony Pictures, HSBC, Google and so on.

Disciplines

Introduction to Visual Communication, Object Drawing (Orthographic) and Nature Study, Art Design and Society, Studies in Typography, Image Making and Representation, Basic Photography Techniques, Communication Skills, Behavioral science, Foreign Languages.

International programs for students of the institution:

Amity University provides the students with Certificate and Diploma in International courses in four departments, namely, Communication, Engineering, Fashion and Management. There are various courses under them. Leading companies across various disciplines come for campus placements at Amity. In technical courses, nearly all students are placed even one year before the completion of the course.

Internships/Jobs of graduates and achievement of professors

Amity has ever growing alumni bases that are currently pursuing fast track careers with blue-chip companies in India and abroad. Amity has some of the most talented and dedicated thought leaders in the country who come from the best institutions around the world. Not only are they academically and professionally amongst the best, but have high standards of moral and ethical values, so that they can be true role models.

Description of University

The School of Architecture has an engaged faculty with high comprehensive quality, knowledge, skill, and great dedication to teaching and to research. In recent years, the school is listed in the national 211 and 985 educational projects, and allowed to establish the first State Key Laboratory of Subtropic Building Science.

Estimation of programs (qualities, advantages, opportunities)

South China University of Technology architectural undergraduate education course consists of two stages of general and special essence, the goal is to develop broad knowledge, solid basic skills, with innovative spirit and a good development potential in the architecture discipline for specialized talents. As a core component of architectural science, the essence of professional training in architecture design is intended, with urban planning, landscape design and related professional disciplines, the curriculum encourages extensive professional adaptability to promote design talent and professional research potential.

Disciplines

The major study for the first half is architecture, together with urban planning and landscape architecture design they are the three major basic synchronization platforms across disciplines, during the second half the focus is on professional development courses, they emphasize the solid foundation for a wide range of disciplines and knowledge of professional practice and ability, and also provide students with a motivation to develop a broader space. Primary study concerns the principle of architectural design and urban planning, architectural design, landscape design principle, construction design, construction technology, construction history, humanities, arts, etc.

International programs for students of the institution:

The School of International Education (SIE) is an international student administrative organization of South China University of Technology (SCUT), which integrates with international student education, administration and the academic research. Since its establishment in July 2004, SIE has enjoyed steady growth and has expanded considerably in both the number of its student and teaching and researching strength.

Internships/Jobs of graduates and achievement of professors

Since its founding, it has educated over 326,000 graduates at all levels. Large numbers of SCUT alumni have made major contributions to the country in areas of politics, economy, technology and education.

Description of University

Taipei Tech is committed to cultivating top technical professionals. Taipei Tech specializes in three fields: technology, design and management. In a recent teaching excellence evaluation by Taiwan's Ministry of Education, Taipei Tech was ranked first among all the other technological Universities.

Estimation of programs (qualities, advantages, opportunities)

The Industrial design course programs at NTUT focus on the needs of society and are directed at making detailed studies of the human life style and the living environment. In order to maximize the students' learning capacity, the instructors take into account the students' academic training and professional background when planning for the project course schedule. While increasing the students' creative capabilities, they also pay special attention to reinforce their professional skills about training computer applications, design management and marketing.

Disciplines

The program has more than 20 disciplines with varying degree of difficulty. These disciplines are separated between two sectors:

Product design major and Furniture and interior design.

International programs for students of the institution:

Integrating the International Student Section from the Office of Academic Affairs and the International Cooperation Section from the Research and Development Office, OIA strives to better serve the growing needs of Taipei Tech as it pursues the goals of internationalization.

The NTUT has six Colleges and currently five of them offer international graduate programs for English speaking students in 2010-2011.

Internships/Jobs of graduates and achievement of professors

TAIPEI TECH was established in 1911 and has since produced an impressive number of outstanding alumni and graduates who have contributed a lot to the economic development and prosperity of Taiwan. Currently, 10% of Taiwan's listed stock company CEOs or Founders are NTUT alumni: Lee Shih-chuan, Secretary-General of Executive Yuan and Shen Jong-chin, Vice Minister of Economic Affairs.

Estimation of programs (qualities, advantages, opportunities)

All subjects and courses are conducted in English by qualified local and foreign staff. All degree programs train students in project management, the use of appropriate materials and technologies with workshop experience. In addition, they emphasize professional proficiency in international architecture, supported by written and spoken English so that the graduates will be able to communicate and work worldwide.

Disciplines

All degree courses are based on the integration and interdependency of art and science and technology. Integrated studies include the quality of life, environmental energy conservation, computer-aided design, responsible use of resources, all with support facilities, which include a computer center and workshops.

International programs for students of the institution:

KMUUT has 11 international programs:
 Computer Science, Civil Engineering, Automation Engineering, Computer Engineering, Electrical Communication and Electronic Engineering, Environmental Engineering, Architecture, Chemical Engineering, Industrial Design, Communication Design, Interior Architecture.

NID has signed the academic agreement with almost 73 universities/ institutes abroad with the objective of promoting cooperation

Companies that the institution has relationship with

NA

Description of University

The mandate for NID is to offer world-class design education and to promote design awareness and application towards raising the quality of life by and through education to create design professionals of excellence to help meet India's diverse design needs. To train design trainers for other design and design-related institutions and positions in the 21st century as global leaders in Design Education and Research by recognising the changes in economic and business environment nationally and globally.

Estimation of programs (qualities, advantages, opportunities)

The program ensures students are well-versed with all aspects of design, and their understanding of design basics is thorough. Students work in a variety of individual and group projects, ranging from the very basic to the technically complex.

Disciplines

Graduate Diploma (GDPD): Generic design program. Project level specialization in product design

Post Graduate Diploma (PGDPD): Consumer products (electronic and entertainment products, white goods), transportation, capital equipment and machine tools, toys.

International programs for students of the institution:

Students take part in workshops and seminars of national and international level. Student exchange programs are also held by the institute.

Internships/Jobs of graduates and achievement of professors

The Sir Ratan Tata awarded scholarship to five students of institute based on their performance in foundation course as well as the marks obtained by them in HSC programs.

Pradyuman Vyas, has done a Master's degree in industrial design from IIT, Bombay. He has been the director of institute since 2009. In pursuance of the National Design Policy approved by the Cabinet in February 2007, an India Design Council was constituted in March 2009 and Pradyumna has been nominated as its Member Secretary by the Ministry of Commerce and Industry, Government of India. In July 2011, he was given the award for outstanding contribution to Design Education at the second Asia's Best B School Award at Singapore.

The institute is also recognised as a scientific and industrial research organisation by the Department of Science and Technology, Government of India.

NUS signs agreements with IRSN to cooperate on nuclear safety training and education

Description of University

As a global University that seeks to influence the future, NUS will strengthen its efforts to nurture graduates who are future-ready, to pursue innovative advances in research and education, as well as deepen collaboration with leading Universities and institutions worldwide.

Estimation of programs (qualities, advantages, opportunities)

In this program students are prepared for a professional career in Architecture. The course enables the students to master in Architecture in the rapidly changing contexts of Singapore, South East Asia and Asia, in general. The program structure prepares students to embark on professional practice and inculcates critical skills required in the changing scenario of architectural design. Graduates are famous persons, like Architecture Koh Oibao Kenneth and Chew Chun Yen who emerged as first place in the open category for DBS design –a-bank competition in 2010.

Disciplines

Industry, Office and Project management, Theory of design, theory of structures, Building construction, Building services, Professional practice.

International programs for students of the institution:

Twenty-five NUS undergraduates were in Kazakhstan for a new STEER (Study Trips for Engagement and EnRichment) program from 19 to 31 May 2015.

Internships/Jobs of graduates and achievement of professors

Faculty and alumni won the Presidents Design award for the year 2013. Students and alumni made the nation proud by garnering more than 30 medals at the 28th SEA Games. A team of final-year NUS Law students has won the inaugural Herbert Smith Freehills Competition Law.

Description of University

Thus Peking University has become a center for teaching and research and a University of a new type, embracing diverse branches of learning such as basic and applied sciences, social sciences and the humanities, and sciences of medicine, management, and education. Its aim is to rank among the world's best Universities in the future.

Estimation of programs (qualities, advantages, opportunities)

According to advantages of the comprehensive subject, absorbing the theory of the international front urbanization and land science;

Enrich the teaching team by hiring the famous scholars in the field of urban planning and design at home and abroad, Improve the cultivation of the students' cross-cultural exchange and international cooperation ability; Accumulate localization experience and exercise professional skills by establishing practice base.

Disciplines

Land use planning:, Urban and Regional Planning, Ecological planning and ecological restoration: Ecological urban planning, Regional ecological risk assessment and analysis, Urban design: Perspective for architecture and landscape design, Urban concept plan, Urban form and landscape design, Public space systems and green space systems design, Urban key sections design.

International programs for students of the institution:

Currently, there are 77 full-time international students and 17 exchange students enrolled at the HSBC Business School and School of Transnational Law. There are a lot of programs for international and native students, such as Singapore Peking Oxford Research Enterprise (SPORE) program and so on. In addition to school sponsored scholarships, international students are encouraged to apply for the Chinese Government Scholarship (CSC).

Internships/Jobs of graduates and achievement of professors

Among the graduates there are best-selling Dutch-language writer, Nobel Prize laureate (physics, 1957), First house church leader to meet an American president, winner of Ostrowski Prize (2013), Cole Prize (2014), Rolf Schock Prize (2014), MacArthur Fellowship (2014).

Central South University, a national key University directly under the Ministry of Education, from Hunan Medical University, Changsha Railway University and Central South University on April 29, 2000 through the merger.

Estimation of programs (qualities, advantages, opportunities)

The school also got one national science and technology progress top grade award, five second awards and third awards. There have been over 13 monographs and 2,600 scientific papers published since 1990. Presently, it has one national key disciplinary area on Bridge & Tunnel Construction. Zuo Tieyong, the graduate, has gained one Chinese patent, written seven works and published more than 110 technical papers.

Disciplines

List of subjects provided by the School of Civil Engineering and Architecture is as follows; Architecture (Bachelor), Civil Engineering (Bachelor), Fire Fighting Engineering (Bachelor), Engineering Mechanics (Bachelor), Engineering Mechanics (Bachelor), Engineering Management (Bachelor), City Planning (Bachelor),

International programs for students of the institution:

Today the University has 800 overseas students from more than 90 countries studying at the University. It is one of the Universities undertaking Chinese Government Scholarship projects. Ministry of Education in China set up this special Chinese government scholarship program of China -America Cultural Exchange. The University offers special scholarships to foreign students: First-prize: no tuition payment, Second-prize: half tuition payment, Third-prize: 80 percent tuition payment.

Internships/Jobs of graduates and achievement of professors

Among the faculty members, there are 3 Academicians of Chinese Academy of Sciences, 12 Academicians of Chinese Academy of Engineering, 781 Doctoral supervisors, 851 full Professors and 1639 Associate Professors. Among the Graduates there is Founder and CEO of BYD, Founder and Chairman of Sany Group.

Description of University

It is one of the most prestigious and selective Universities in China and Asia, and is a member in the C9 League and Universities 21. Fudan is now composed of four campuses, including Handan, Fenglin, Zhangjiang, and Jiangwan.

Estimation of programs (qualities, advantages, opportunities)

Undergraduate Education School of Journalism at Fudan University offers undergraduate general education on the basis of carried out studies. After the freshmen year, students are accepted into the Fudan School for general education, learning is complemented with basic courses and quality education courses before returning to journalism school to receive professional education faculties.

Disciplines

The professional training of journalism, communication science background knowledge, familiarity with the new trend of media convergence, getting familiar with the operating mechanism of the mass media, mastering new media and online media application skills and etc.

International programs for students of the institution:

Starting from the 1950s, Fudan has enrolled international students — one of the first few institutions in China to do so. Since then, Fudan has accepted and trained over 10,000 foreign students from 100 countries and regions worldwide. At the end of 2006, there were 2,812 international students studying at Fudan University, ranked number 2 in the nation. Half of them were actively pursuing degrees, the rest were general visiting scholars. In addition, Fudan enrolls over 1,700 short-term students each year.

Internships/Jobs of graduates and achievement of professors

Educationally, academically and economically, Fudan alumni strengthened ties with their alma mater through playing a significant role in the development of the University. The routine services of these alumni associations include: updating contact lists, holding conferences, conducting Sino-foreign cultural exchanges, and keeping contact with other alumni associations throughout the world. Award, TWAS Prize, National J.C. Bose Fellowship, Fulkerson Prize, Goedel Prize, National Academy of Sciences (NASc).

Fudan University has a high-level research faculty of over 2,400 full-time teachers and researchers, including 1,350 Professors and Associate Professors, 30 Academicians of the Chinese Academy of Sciences.

Description of University

In terms of education, Kyushu University began a new education system in the Faculty of Arts and Science in Academic Year 2014, to help all students “learn about learning and thinking” and acquire basic knowledge and skills before moving on to study in their majors. Most students studying at the University are still in their adolescent years, and this is an important time for them to find a direction in life through flexible thinking, and to construct their own identities.

Estimation of programs (qualities, advantages, opportunities)

The aim of this department is to provide insight into how to create an ideal living environment through the following studies: planning and design of various daily-life necessities, such as user products and living space, based on deep understanding of the human life system with use of design methods with sensibility, science and technological skills in the light of art, culture, and characteristics of human beings.

Disciplines

Art engineering, Industrial design foundation, Design History Introduction, Design theory, Life equipment design theory, Living space design theory, Living space design theory and exercises, Modern life design theory and exercises, Interaction Design, Life equipment modeling theory and exercises, Living space modeling theory and exercises, Design Culture and exercises, Design system theory and exercises, Planning design project exercises, Intellectual property rights theory, Design strategy foundation, Industrial design project research, Internship.

International programs for students of the institution:

There are UK and USA programs (information not available).

Internships/Jobs of graduates and achievement of professors

After graduate school, many students find jobs at major design related enterprises. There are also those who work in academia, research institutes, other industries, and public offices, each receiving high reputation.
